LETHBRIDGE + SOUTHWESTERN ALBERTA

Charity Support Funds at the Community Foundation

Establishing or contributing to a **Charity Support Fund** is a way that donors to the Community Foundation can support the work that a specific charity does throughout the community. These funds fulfill the crucial role of assisting charitable organizations in accumulating an endowment to generate operating funds. Any donation, no matter the size, helps to provide continuity of programming and financial security for charities in the future.

The following is a list of existing Charity Support Funds at the Community Foundation. This list is by no means exclusive. The Community Foundation makes it easy to donate to any registered charity in Canada, including those not listed here.
